Re: BAV Auto L.L.C. aka Costa's Auto Gallery

### **ASSIGNMENT & PURPOSE**

We have been retained by Steven D. Pertuz, Esq. to appraise the vehicles of BAV Auto L.L.C. aka Costa's Auto Gallery at the location defined below to determine the Forced Liquidation Value. It is our understanding that the intended use of this Appraisal Report ("Report") is for financial decision-making purposes.

### **APPRAISAL LOCATIONS**

1829 State Highway Route 1, Rahway, New Jersey  
720 King Georges Post Road, Fords, New Jersey

### **APPRAISAL METHODOLOGY**

#### **Value Definition**

**Forced Liquidation Value (FLV)** is a professional opinion of the estimated most probable price expressed in terms of currency which the vehicles could typically realize at a properly advertised and professionally managed public auction sale, held under forced sale conditions and present day economic trends, as of the Effective Date of the appraisal report. Further the ability of the vehicles to draw prospective buyers to ensure competitive offers is considered. The vehicles in this case is to be sold in a "as-is condition, where-is location", with the purchaser being responsible for removal at their own risk and expense. The sale is assumed to be a sale of duress, where business operations may or may not have been discontinued. All sales are for cash and are final. A Forced Liquidation Value conclusion does not consider the expenses associated with the liquidation of the assets. If all of the assets were not sold together or, if the assets were sold "in place", the values could be affected.

#### **Appraisal Process**

The value for the vehicles appraised has been established through extensive research. We have utilized the results of our computer database of recent auctions, liquidations and used vehicles transactions for comparable sales.

Re: BAV Auto L.L.C. aka Costa's Auto Gallery

### Approaches to Value

In conducting this Appraisal, we have considered the three recognized approaches to value.

***Sales Comparison Approach*** - The appraiser adjusts the prices that have been paid for items comparable to the item being appraised, equating the comparables to the subject.

***Cost Approach*** - The appraiser adjusts the replacement cost (new) of the item being appraised for the loss in value caused by physical deterioration, functional obsolescence, and economic obsolescence. The Cost Approach is based on the principle of substitution: a prudent buyer will not pay more for an item than the cost of acquiring a substitute property of equivalent utility.

***Income Approach*** - The appraiser determines the present value of the future economic benefits of owning the property.

For purposes of this Appraisal, we have relied upon the Sales Comparison Approach and the Cost Approach in establishing our value. In those instances where historic sales of comparable items were not available, the Cost Approach was the primary approach used. The Income Approach, which was not applied in this appraisal, is used on an analysis of the earnings and the present worth of the future potential benefit of the property appraised. The Income Approach cannot be properly applied without the benefit of a detailed financial analysis, which is beyond the scope of this Appraisal.

Re: BAV Auto L.L.C. aka Costa's Auto Gallery

### COMPANY OVERVIEW

BAV Auto L.L.C. aka Costa's Auto Gallery is a used car dealer.

### SITE INSPECTION

1829 State Highway Route 1, Rahway, New Jersey

I physically inspected the items appraised on December 17, 2022. On this date the condition of the vehicles are as described in the body of the report. The dealership occupies a single story commercial building of approximately 1,800 square feet. The building has an office and 2 drive through repair bays.

### SUMMARY OF VALUE

It is our opinion that if the items appraised were sold at an auction sale as previously defined, \$ 111,150.00 (one hundred eleven thousand, one hundred fifty dollars) could be realized. The value expressed represents gross sale proceeds and does not take into consideration the expenses associated with conducting an auction sale and the cost to clean up the premise.

It should be stated COVID-19 was declared a pandemic on March 11, 2020 by the World Health Organization. The financial markets have sustained substantial turmoil, and due to the developing situation, it is not possible at this time to quantify its long-term effects on the marketplace overall. The value opinion contained in this appraisal report is based on findings of an analysis of market data available to the appraiser at the time of the assignment.

Re: BAV Auto L.L.C. aka Costa's Auto Gallery

**THIS REPORT IS SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS:**

1. This Appraisal is based only on the readily apparent identity of the items appraised, and no further opinion or guarantee of authenticity, genuineness, or authorship is made. The appraised objects correspond to the descriptions listed in the appraisal and may be accompanied by photographs.
2. The appraised values are based on the whole ownership and possessory interest undiminished by any liens, fractional interests, or any other form of encumbrance or alienation.
3. This Appraisal is made at the request of the party named for their use. It is not an indication of certificate or title or ownership. The identification of the interest of the requesting party is simply that represented to the appraiser and no inquiry has been made nor is any opinion given to the truth of such representation.
4. The values expressed herein are based on the appraiser's best judgment and opinion and is not a representation or warranty that the items will realize those values if offered for sale through a particular market. The values expressed are based on current information of the past performance and no opinion is hereby expressed as to any future value.
5. Stated values are given item by item unless stated per lot or group. The totals of individual items values shall not be construed as an appraisal value for the whole lot, but merely the addition of single values. Where a value is given per lot, it is for the whole unit and no opinion is given as to the individual value within the lot.
6. Values expressed are based on the general expertise and qualification of the appraiser and based on the appropriate market and valuation for the items and purpose involved. Where more particular, detailed valuation information is relied on, it will be stated. (Sec #13).
7. Where an appraisal is based on a sample of a larger whole, it will be stated and is based on the assumption that the sample delivered is representative and fair. No opinion or warranty is hereby made as to the fairness of any large whole from which the same was drawn.
8. When an appraisal is based not only on the items, but also on data or documentation supplied therewith, this certificate shall so state by making reference thereto and, where appropriate, attaching copies. Since this is a summary report, that documentation has been kept in my files and is available upon request.
9. Unless expressly stated, the pre-condition of the item appeared good for its type, with serious deficiencies and repairs noted.

Re: BAV Auto L.L.C. aka Costa's Auto Gallery

10. No portion of this report may be reproduced, copied or used in any manner by anyone without the previous written consent of this appraiser and client and then only if its entirety including all cover letters and material.

11. It is understood that this appraiser has no present or contemplated future interest in the items herein described. Employment and compensation for the appraisal are not contingent upon the values found.

12. Should, in conjunction with the Appraisal, additional services of the appraiser as requested by the Client, his Agent or Attorney, or the court (such as for added time researching for other value purposed, pretrial conferences, court appearances, preparations, etc.) compensation for same shall be at the customary hourly rate charged by the Appraiser at the time and availability of the Appraiser and shall be subject to the Appraiser's schedule and reasonable notice by the client.

13. If the sales comparison approach was used, the process bases the valuation on comparable or identical items actually sold (transactions) in the marketplace, not on any potential, past, or future income derived from said articles (income approach). If the cost approach was used, it is based on either production or reproduction costs or the estimated cost to purchase in the appropriate market.

14. If the scope of this assignment was limited by the client, or working conditions resulted in limitations, or if any reason existed which resulted in a departure from our normal standard, the reason for such departure and its impact on the final value conclusions would have been discussed with the client and noted in this report.

15. No change to any items in this appraisal shall be made by anyone other than me. Possession of this report or its copy does not carry with it the right of publication or use by any other party without my written consent.

16. Appraisal file will be retained for a period of 5 years after preparation or at least 2 years after final disposition of any judicial proceeding in which testimony was given, whichever period expires last. Unless notified, records will be destroyed at that time.
